LEGAL AND REGULATORY COMPLIANCE IN PROCUREMENT

Overview:

The Legal and Regulatory Compliance in Procurement training program is designed to provide procurement professionals with an understanding of the legal and regulatory frameworks that govern procurement activities. The program will cover a range of topics, including procurement laws and regulations, contract management, intellectual property rights, and ethics and integrity in procurement. The program will also provide participants with an understanding of how to identify and manage legal and regulatory risks in procurement activities.

Objectives:

- Develop an understanding of the legal and regulatory frameworks that govern procurement activities
- Learn how to identify and manage legal and regulatory risks in procurement activities
- Understand contract management and intellectual property rights in procurement
- Develop ethics and integrity in procurement practices
- Understand the importance of compliance in procurement activities

The training program will include lectures, case studies, group discussions, and practical exercises. Participants will have the opportunity to apply the concepts learned in the training program to real-world procurement scenarios. By the end of the training program, participants will have an understanding of the legal and regulatory frameworks that govern procurement activities, as well as an understanding of how to identify and manage legal and regulatory risks in procurement activities. They will also have the skills and knowledge necessary to develop ethics and integrity in procurement practices and understand the importance of compliance in procurement activities.

Targeted Groups:

- Compliance officers in procurement
- Contract managers responsible for regulatory adherence
- Legal professionals involved in procurement compliance
- Procurement directors ensuring legal compliance
- Supply chain managers focused on regulatory requirements
